

Green Frog Mechanical Project: **Three Snow Hill**

Site:

Three Snow Hill,
Birmingham

Client:

BAM Construction

Duration of contract:

24 Months

Contract Value:

Circa. £2.6m

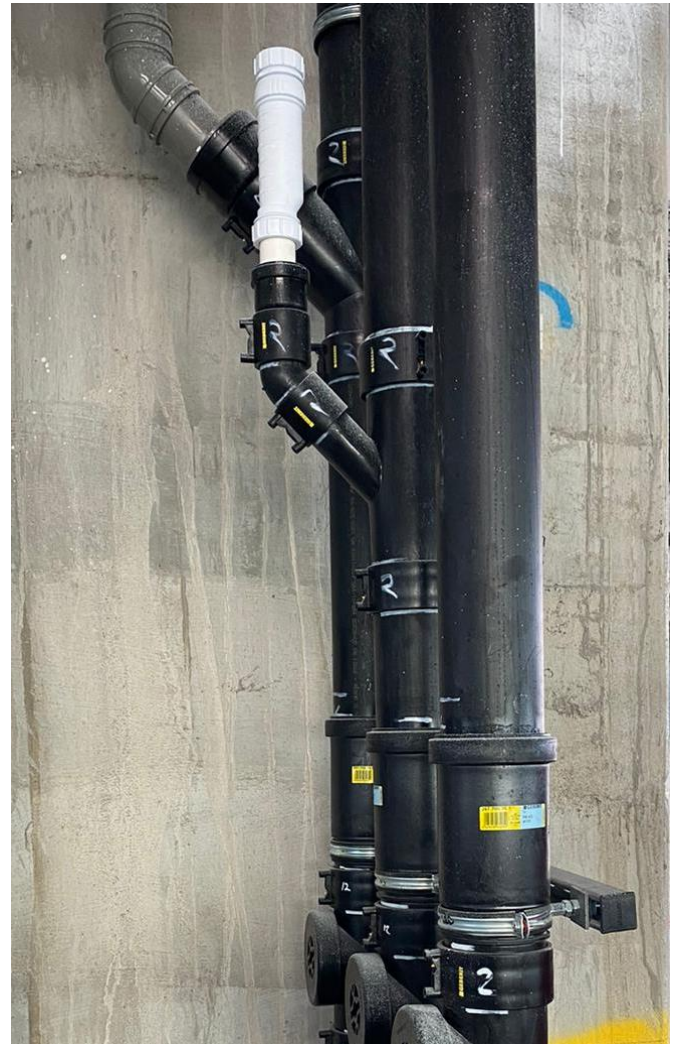

Scope of Works

Green Frog Mechanical, in November 2018, were awarded the prestigious mechanical installation package by BAM for the Three Snow Hill development.

Ultimately the building would become 420,000 sq ft of grade A office building located in the heart of the business district in Birmingham city center.

Included within the package was a fully intergraded HDPE above ground drainage system utilising a cross vent system. 24 floors of bespoke sanitaryware installation alongside domestic pipework supplies to all outlets.

Green Frog Mechanical Project: **Three Snow Hill**

The project comprised of the following

GFM installed all domestics, sanitaryware, HDPE & HPPE, above ground drainage, LTHW & CHW systems to fully service the building and its tenants and their differing range of needs. Another flagship project delivered by GFM on behalf of BAM Construct both on time and in budget with an unrivaled level of craftsmanship and H&S management.

Key Achievements:

- Smooth running of the project.
- Excellent quality of workmanship.
- Zero accidents / lost time injuries
- Successful completion of the project

Challenges:

- Communication with other trades
- Shortened programme of works
- Logistical issues due to location
